I. SIGNIFICANT TRENDS:

A request to the Regents to implement a new Master of Finance (M.Fin.) degree program was approved. It will be a full-time residential program that will provide a more quantitative skill set than that of the undergraduate Finance degree, and will prepare students for careers in advanced financial data analysis, credit analysis, risk management and similar specialized areas. The program will also be helpful to those wishing to pursue professional certifications such as Chartered Financial Analysts (CFA) and Financial Risk Manager (FRM). The first class of students will begin the program in Fall 2014. In addition, proposals for concurrent MSEcon/M.Fin. and MBA/M.Fin. programs are pending.

Concurrent bachelors/MBA degree programs have been approved: Food Science/MBA and Animal Science/MBA. Proposals for concurrent AST/MBA and ITEC/MBA degree programs are pending.

The College of Business faculty has approved the addition of a Management specialization to the Ph.D. in Business and Technology. Addition of the specialization is currently pending appropriate approvals.
