10/19/2006 7 Agenda topic for FSASAC, Oct 20

Several years ago, when the University Teacher Education Committee (UTEPC) voted to raise Praxis I scores and sent this on to the University Academic Standards, I was informed by our college rep to Academic Standards that because UTEPC is a university committee, policy changes for the Teacher Education Program that affect multiple colleges and are approved by UTEP would not need to also be reviewed by the Academic Standards Committee. Do you have any memory/record of that decision? Does this policy reflect current practice?
