Review of Agenda

Approval of Minutes from 9-14-15

Items forwarded from ACC: None

Unfinished business:

- Handling of experimental course proposals for jointly administered programs – my suggestion is that rather than creating a sequential workflow in Courseleaf, is that a single college be designated for the workflow, but that the other college be alerted to the proposal and receive PDFs for review in parallel...
- A discussion of Internship credit – are there standards in the other colleges?

New Business:

- Report on any new majors, minors, etc. that might be coming this year.

Old Business / updates:

Next meeting: October 12
